Overview

CODE	TITLE
rfq_190284	PS_RzP_Assembly line PCV Solenoid
DESCRIPTION	

Dear suppliers,

Today we are pleased to send you the official request for the above mentioned project.

Please answer the questions and upload the last technically discussed and approved offer to our platform.

Please note the following restrictions and take this into account in your bids:

Incoterm: DAP Rodez

Payment condition at least 90% after delivery & 10% after final acceptance within 60 days (within 90 days preferred) – we are also happy to support with our Supplier Finance Program in cooperation with Santander

Warranty: 24 months

Please also offer your current service hourly rates.

All specifications must be combined with the special project specification.

Please submit with your offer a priced list of probably needed wear and spare parts – The distinction should be clearly visible.

If you have any queries, please do not hesitate to contact us.

Best regards,

Sara Gohier

Technical Envelope: 1.1 Requirement Specifications

	QUESTION	DESCRIPTION	RESPONSE

1.1.1	Scope of Requirement Specifications	Please confirm that your Offer and (if needed) your Technical Proposal are based on the criteria described within the Requirement Specifications. The scope of your Offer has to cover all requirements and has not to exceed what is requested. If there are deviations for whichever reasons, please state such deviations clearly in a separate document to be uploaded into this tool (in the "Additional Attachments Area" at the end of the Techn. Envelope). The Requirement Specification can be found in the Supplier Attachments.	Yes

Technical Envelope: 1.2 Upload of qualified technical Response

	QUESTION	DESCRIPTION	RESPONSE
1.2.1	Technical Proposal	Please confirm that you upload your Technical Proposal in the section "Additional Attachments Area" which can be found below at the end of the Technical Envelope.	Yes

Technical Envelope: 1.3 Material Field Specifics

	QUESTION	DESCRIPTION
1.3.1	Material Field specific remarks	*SECTION TO BE ADAPTED BY EACH BUYER*: Instruction for the buyer: in this section, you can enter Material Field specific questions to the Supplier. You can refer to the i-Source Docupedia page for a guideline concerning your MF or or consult your Category Manager.

Technical Envelope: 1.4 IT Security for MAE

	QUESTION	DESCRIPTION	RESPONSE
1.4.1	IT Security questionnaire	Please download the file, fill in and upload it here again. Before doing it, read carefully the IT Security documents available in the Attachment Area.	N51M_M27_2022-05-16_Anlage_1_Lieferantenselbstauskunft.xlsx

Commercial Envelope: 2.4 Acceptance of Elements of Robert Bosch Code of Conduct for Business Partners

This section is applicable only when:		Availability of suppliers own Code of Conduct (CoC) = no	
	QUESTION	DESCRIPTION	
2.4.1	Note	If you do not agree to our Robert Bosch Code of Conduct for Business Partners (CoC BP) and also cannot confirm that you have your own written Code of Conduct covering the content/all elements of ours, please let us know which elements of our Robert Bosch Code of Conduct for Business Partners (CoC BP) you cannot agree. Please answer with "Yes" to all the elements you agree and "No" to these you cannot agree. If you answered with "No", please give us an explanation why you rejected the element.	
	QUESTION	DESCRIPTION	RESPONSE
2.4.2	A1. Social standards – Human rights (CoC BP)	Human rights: We expect our business partners to consistently respect and actively protect internationally recognized human rights. The United Nations Guiding Principles on Business and Human Rights provide the underpinning for this. This includes protecting local communities, indigenous peoples, and human rights defenders.	--- (This field will not be Submitted)
2.4.3	Explanation: A1. Social standards – Human rights (CoC BP)	If you answered the previous question with "No", please explain why you denied it.	
2.4.4	A2. Social standards – Child labor (CoC BP)	Child labor: Our business partners undertake to employ only persons who have reached the minimum legal age for work set out by statutory provisions in the country of employment and not to tolerate any form of child labor. ILO Conventions No. 138 on the Minimum Age for Employment and No. 182 on the Elimination of the Worst Forms of Child Labor shall be observed. Beyond that, our business partners also undertake to observe and respect the dignity and rights of children.	--- (This field will not be Submitted)
2.4.5	Explanation: A2. Social standards – Child labor (CoC BP)	If you answered the previous question with "No", please explain why you denied it.	
2.4.6	A3. Social standards – Forced labor (CoC BP)	Forced labor: We expect our business partners to strictly reject any form of forced labor, which includes but is not limited to human trafficking, torture, and slavery or compulsory labor of any kind. The principle of freely chosen employment is to be respected and observed.	--- (This field will not be Submitted)
2.4.7	Explanation: A3. Social standards – Forced labor (CoC BP)	"If you answered the previous question with "No", please explain why you denied it.	

2.4.8	A4. Social standards - Freedom of association (CoC BP)	Freedom of association: The fundamental right of employees to form and join trade unions of their own free choice are to be respected by our business partners. Membership in trade unions or employee representative bodies shall not constitute a reason for unjustified discrimination. The right to collective bargaining for the settlement of disputes pertaining to working conditions and the right to strike shall be granted within the framework of statutory provisions and in accordance with ILO Convention No. 98.	--- (This field will not be Submitted)
2.4.9	Explanation: A4. Social standards - Freedom of association (CoC BP)	If you answered the previous question with "No", please explain why you denied it.	
2.4.10	A5. Social standards - Equal opportunities and fair treatment (CoC BP)	Equal opportunities and fair treatment: We expect our business partners to take exception to discrimination of any kind, be it based on skin color, ethnic origin, gender, age, nationality, social background, disability, sexual orientation, religious affiliation, human ideology, or political and trade union activity. The same applies to any form of harassment. Given comparable requirements and tasks, the principle of equal remuneration for work of equal value shall apply irrespective of gender. ILO conventions are to be observed.	--- (This field will not be Submitted)
2.4.11	Explanation: A5. Social standards - Equal opportunities and fair treatment (CoC BP)	If you answered the previous question with "No", please explain why you denied it.	
2.4.12	A6. Social standards - Fair working conditions (CoC BP)	Fair working conditions: Our business partners undertake to enforce the right to fair labor conditions in accordance with applicable ILO conventions. This includes fair wages and social benefits equal to or higher than the rates prescribed by national or regional authorities, legal standards, or other labor agreements. The statutory provisions on minimum wage in the respective countries are to be observed alongside the applicable regulations on working hours, breaks, and vacation entitlements.	--- (This field will not be Submitted)
2.4.13	Explanation: A6. Social standards - Fair working conditions (CoC BP)	If you answered the previous question with "No", please explain why you denied it.	
2.4.14	A7. Social standards - Occupational health and safety (CoC BP)	Occupational health and safety: At the minimum, our business partners shall comply with national workplace safety and hygiene standards, and take appropriate measures to meet occupational health and safety requirements so as to ensure healthy working conditions. In addition, our business partners who are also manufacturers shall consider adopting and advancing an occupational health and safety (OHS) management system pursuant to ISO 45001 or an industry-appropriate OHS management system, and take suitable measures to achieve the objectives of an OHS management system.	--- (This field will not be Submitted)
2.4.15	Explanation: A7. Social standards - Occupational health and safety (CoC BP)	If you answered the previous question with "No", please explain why you denied it.	
2.4.16	A8. Social standards - Protection from eviction and deprivation of land (CoC BP)	Protection from eviction and deprivation of land: Our business partners undertake to refrain from any unlawful evictions. They shall also refrain from any unlawful deprivation of land, forests, and waters via the acquisition, development, or other use thereof.	--- (This field will not be Submitted)
2.4.17	Explanation: A8. Social standards - Protection from eviction and deprivation of land (CoC BP)	If you answered the previous question with "No", please explain why you denied it.	
2.4.18	A9. Social standards - The use of private or public security forces (CoC BP)	The use of private or public security forces: Our business partners undertake to refrain from hiring or using private or public security personnel if, due to a lack of instruction or control on the part of the company, there is a risk of breaching the prohibition of torture and cruel, inhuman, or degrading treatment, of jeopardizing life or limb, or of infringing on the freedom of association.	--- (This field will not be Submitted)

2.4.19	Explanation: A9. Social standards – The use of private or public security forces (CoC BP)	If you answered the previous question with "No", please explain why you denied it.	
2.4.20	B1. Environmental standards – Environmental protection (CoC BP)	Environmental protection: In keeping with the precautionary principle, our business partners undertake to make every effort to minimize risks to people and the environment and to protect the natural resources that underpin the production of food. All processes, operating sites, and production resources employed by our business partners must meet applicable statutory requirements and standards for environmental protection. Our business partners who are also manufacturers undertake to adopt and advance an environmental management system (EMS) pursuant to ISO 14001 or an environmental management system suitable for the industry. Business partners are also obliged to take measures to achieve ISO 14001 objectives in an appropriate manner.	--- (This field will not be Submitted)
2.4.21	Explanation: B1. Environmental standards – Environmental protection (CoC BP)	If you answered the previous question with "No", please explain why you denied it.	
2.4.22	B2. Environmental standards – Climate action (CoC BP)	Climate action: We expect our business partners to engage in persistent and active climate action, for example, by increasing energy efficiency or generating or procuring energy from renewable sources. They are to provide a transparent view of their carbon emissions and set ambitious carbon reduction goals.	--- (This field will not be Submitted)
2.4.23	Explanation: B2. Environmental standards – Climate action (CoC BP)	If you answered the previous question with "No", please explain why you denied it.	
2.4.24	B3. Environmental standards – Water consumption and quality (CoC BP)	Water consumption and quality: Our business partners undertake to use water with due care. In regions where water is scarce, they are to minimize the withdrawal of water and afford access to potable water and sanitation. Wastewater quality standards shall be defined and monitored within the scope and structure of applicable statutory and regulatory requirements.	--- (This field will not be Submitted)
2.4.25	Explanation: B3. Environmental standards – Water consumption and quality (CoC BP)	If you answered the previous question with "No", please explain why you denied it.	
2.4.26	B4. Environmental standards – Air and soil quality (CoC BP)	Air and soil quality: At the minimum, our business partners shall comply with applicable statutory provisions and local authorities' requirements	--- (This field will not be Submitted)
2.4.27	Explanation: B4. Environmental standards – Air and soil quality (CoC BP)	If you answered the previous question with "No", please explain why you denied it.	
2.4.28	B5. Environmental standards – Materials and waste disposal (CoC BP)	Materials and waste disposal: We expect our business partners to minimize any impact their operations may have on the environment and to use resources sparingly. Materials are to be reused whenever possible. In dealing with waste, our business partners follow the principle of first avoiding waste, then recycling, and finally disposing of it as a last resort. At the minimum, our business partners shall comply with applicable statutory provisions and authorities' requirements.	--- (This field will not be Submitted)
2.4.29	Explanation: B5. Environmental standards – Materials and waste disposal (CoC BP)	If you answered the previous question with "No", please explain why you denied it.	

2.4.30	B6. Environmental standards – Substances of concern (CoC BP)	Substances of concern: Our business partners are required to observe the rules of material compliance – that is, the statutory substance prohibitions, restrictions, and declaration requirements, applicable standards, and the Bosch-Norm N2580 on the Prohibition and Declaration of Substances. In particular, this means observing the ban on the production of products containing mercury, the prohibition on using mercury and mercury compounds in manufacturing processes and treating mercury waste according to the Minamata Convention, the ban on producing and using certain chemicals defined in the Stockholm Convention on Persistent Organic Pollutants, and the ban on exporting hazardous waste under the Basel Convention.	--- (This field will not be Submitted)
2.4.31	Explanation: B6. Environmental standards – Substances of concern (CoC BP)	If you answered the previous question with "No", please explain why you denied it.	
2.4.32	C1. Business relations – Avoiding conflicts of interest (CoC BP)	Avoiding conflicts of interest: We expect our business partners to make decisions based on objective considerations and not to be improperly guided by personal interests. A business partner who becomes aware of a potential conflict of interest shall take internal measures to remedy these conflicts and notify Bosch without delay.	--- (This field will not be Submitted)
2.4.33	Explanation: C1. Business relations – Avoiding conflicts of interest (CoC BP)	If you answered the previous question with "No", please explain why you denied it.	
2.4.34	C2. Business relations – Free competition (CoC BP)	Free competition: Our business partners are obliged to observe the rules of fair competition and comply with all applicable statutory regulations. They shall also refrain from forming cartels or engaging in concerted practices deliberately or incidentally designed to bypass, restrict, or distort competition as defined by antitrust laws, or abuse a dominant market position.	--- (This field will not be Submitted)
2.4.35	Explanation: C2. Business relations – Free competition (CoC BP)	If you answered the previous question with "No", please explain why you denied it.	
2.4.36	C3. Business relations – Corruption (CoC BP)	Corruption: Our business partners undertake to abide by the applicable anticorruption laws. In particular, they shall ensure that their employees, subcontractors, or representatives do not offer, promise, or grant advantages to associates of the Bosch Group with the aim of obtaining a contract or other preferential treatment in the course of business. The same rules apply to agreements with third parties concluded in connection with a contract with Bosch.	--- (This field will not be Submitted)
2.4.37	Explanation: C3. Business relations – Corruption (CoC BP)	If you answered the previous question with "No", please explain why you denied it.	
2.4.38	C4. Business relations – Money laundering (CoC BP)	Money laundering: Our business partners are required to comply with laws to prevent money laundering and duly fulfill their reporting obligations.	--- (This field will not be Submitted)
2.4.39	Explanation: C4. Business relations – Money laundering (CoC BP)	If you answered the previous question with "No", please explain why you denied it.	
2.4.40	C5. Business relations – Conflict minerals (CoC BP)	Conflict minerals: We expect our business partners to desist from all activities that directly or indirectly contribute to the funding of armed groups. To this end, they shall comply with the Bosch Group Policy for Conflict Raw Materials as well as the applicable statutory provisions in conflict raw materials.	--- (This field will not be Submitted)
2.4.41	Explanation: C5. Business relations – Conflict minerals (CoC BP)	If you answered the previous question with "No", please explain why you denied it.	

2.4.42	C6. Business relations - Data privacy and data security (CoC BP)	Data privacy and data security: Our partners undertake to enforce the right to informational selfdetermination, the privacy of personal data, and the security of all business information and personal data in all business processes in compliance with statutory provisions and the applicable privacy and information security laws.	--- (This field will not be Submitted)
2.4.43	Explanation: C6. Business relations - Data privacy and data security (CoC BP)	If you answered the previous question with "No", please explain why you denied it.	
2.4.44	C7. Business relations - Customs and export control regulations (CoC BP)	Customs and export control regulations: Our business partners undertake to comply with international customs and export control regulations, and proactively share foreign trade-related information in the interests of a secure supply chain.	--- (This field will not be Submitted)
2.4.45	Explanation: C7. Business relations - Customs and export control regulations (CoC BP)	If you answered the previous question with "No", please explain why you denied it.	
2.4.46	C8. Business relations - Sub-supplier management process (CoC BP)	The of Robert Bosch Code of Conduct's contents shall also apply in its entirety to suppliers and other third parties used by our business partners to fulfill any contracts with Bosch. Therefore, our business partners shall integrate requirements corresponding to the contents of this Code of Conduct into their respective own contracts. We expect them to use their best efforts to oblige their suppliers and other third parties accordingly.	--- (This field will not be Submitted)
2.4.47	Explanation: C8. Business relations - Sub-supplier management process (CoC BP)	If you answered the previous question with "No", please explain why you denied it.
